I agree to purchase the Miniature Long Haired Dachshund puppy that whelped on from her breeder.

I understand that this puppy has been sold as a "Pet Only" and I enter an agreement with the breeder that the dog is not to be bred from and will be desexed by 9 months age.

I agree that the dog will be treated as a member of the family. The dog will receive all the care and attention necessary to ensure its health and wellbeing. This includes the provision at all times of sufficient food, water, exercise and medical care.

I agree that the property where the dog will reside will be fully fenced and the dog will be contained within these fences.

I agree that the dog will be de-sexed by 9 months old - unless agreement is reached with the breeder that this should not occur.

I agree that in the event of my situation changing and the above dog has to be re-homed, it will either be returned to the breeder, or her written consent will be obtained before the dog is re-homed.

There is a trial period of 30 days for the breeder and the purchaser during which either party can return/request the return of the puppy.

Any refund of purchase price will be limited to the original purchase price as a maximum.

If serious concerns arise as to the safety/wellbeing of the dog following the completion of the trial period or if the conditions of purchase as set out in this contract fail to be adhered to the breeder has the right to remove, without notice, the dog from any property that she may be on at the time.

If this agreement is violated the purchaser will be responsible for all legal and associated costs involved in enforcing this contract.

The puppy has been wormed, is vaccinated, has been and vet checked. The vaccination certificate, diet sheet and general care information is supplied.
